

REMARKS/ARGUMENTS

The Applicants have carefully considered this application in connection with the Examiner's Action and respectfully request reconsideration of this application in view of the following remarks.

The Examiner indicated that dependent claims 26, 28 and 29 are allowable, if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

New dependent claims 30 – 42 are, for example, supported by old claims 20 - 29.

New independent claim 30 recites, "wherein said substrate is coated with indium tin oxide" as recited in old claim 26. For that reason, new claim 30 should now be allowable.

New independent claim 37 incorporates the elements of old claims 20, 27 and 28 and thus, should be allowable.

Dependent claims 31 – 36 and 38 – 42 should be allowable, at least, by their dependence on allowable base claim 30 or 37.

Therefore, the Applicants respectfully request the Examiner pass all are currently pending Claims to issue.

II. Conclusion

The Applicant respectfully submits that the foregoing claims, as amended, are allowable over the art of record. Therefore, a Notice of Allowance for claims 30-42 is respectfully requested.

The Applicants request the Examiner to telephone the undersigned attorney of record at (972) 480-8800 if such would further or expedite the prosecution of the present application.

Respectfully submitted,

HITT GAINES, P.C.
